Sequoia Twig

Owners manual

The Sequoia Twig is a NEMA based (Hot Neutral Ground) USA 120 V-AC standards AC power Conditioner - It is Self Standing from a USA Standards wall outlet 120V-AC or tethered to Any AC Power source used in the USA that is 120 V-AC fitting NEMA Standards.

This includes any of our AC-Power conditioners.

There are options available, to direct the control of the permitted Loads applied to the three duplexes.

- One set of two duplexes that are always grounded ... black in color.
- One Orange duplex is Ground lift capable, by bat switch as a separate circuit... this switch is for selecting the state of Grounded or Ungrounded on the Orange Duplex only.
